

Technical Update • October 14, 2013 Special Corrected Edition

Cleveland Clinic Laboratories is dedicated to keeping you updated and informed about recent testing changes. That's why we are happy to provide this technical update on a monthly basis.

Recently changed tests are **bolded**, and could include revisions to methodology, reference range, days performed or CPT code. For your convenience, tests are listed alphabetically and the order and billing codes are provided.

If you wish to compare the new information with previous test demographics, refer to the Test Directory, which can be accessed at clevelandcliniclabs.com.

Deleted tests and new tests are listed separately. Please update your database as necessary. For additional detail, contact Client Services at 216.444.5755 or 800.628.6816 or via email at clientservices@ccf.org.

Test Changes

Test Name	Order Code	Billing Code	Change	Effective Date
Haemophilus influenzae B Antibody IgG	HINFLU	50155	This test was incorrectly listed as a deleted test in the September Technical Update. It is again an orderable test in our test directory. Our apologies for any confusion or inconvenience this may have caused.	10/11/2013
